

LIFESTYLE ABLAZE

INTO THE JOURNEY
WITH FIRE & GAS LIFESTYLES

WRITTEN BY Sue Naidoo

Fire and Gas Lifestyles is a niche market retailer and importer of wood burning closed system fireplaces with their own well trained installers offering clients the full service from start to finish.

Trendy fireplaces have become a necessity for every home focussing on rich decor. No longer limited to just living rooms, fireplaces add the perfect touch to bedrooms, dining areas and entertainment rooms. These stylish contemporary designs elegantly accommodate your existing decor, regardless of style or room size.

Fire and Gas Lifestyles is a niche market retailer and importer of wood burning closed system fireplaces with their own well trained installers offering clients the full service from start to finish.

With the unique set of designs available, there will always be a fireplace suited to an individual styles and preferences. Fire & Gas monitor European trends closely and bring South Africans the latest units which all conform

to stringent European standards. They are committed to providing clients with an in-depth understanding of the product range which would enable them to make a well informed decision before investing.

Fire and Gas offers its client a wide range of options to choose from including gas burning or wood burning open fireplaces with their close burning fireplaces being most popular. Installing a fireplace gives your room a special charm, increases the value of your home and makes it more enjoyable for you on those cold Winter days. Previously, homeowners were limited to the choice of a fireplace and was left with an eye sore in the corner of a room, with Fire and Gas fireplace designs, homeowners are designing their rooms with their fireplace as the focal point.

Our product offering is large over many brands and we only use quality materials in our installations to ensure your unit's function optimally.
