1957

A Custom New Build

7mx3m Three Sided Rim-Flow Pool

The Client wanted a super modern swimming pool for their new home on a large horse stud.

- We undertook all the specialist pump specification to allow the water that spilt over the rim-flow into the containment trough to be pumped back into the main pool.
- As the pool was completely above ground, we specified the exact steel requirements to safely contain the water and ensure the pool is structurally sound.
- The pool spill over and pool face were finished in flamed granite slabs, to the delight of the clients.
- Finally, a Balinese mosaic which the client had selected specifically was applied to the pool's water line and steps.
- The pool was finished in Portland Grey Marblite completing the Clients dream pool.

Our 68 years of experience has set us up to build specialist pools such as these.

A Renovation Dream

Complete Pool & Paving Renovation

We were contacted to renovate this pool which had stained and damaged white Marblite.

- We chipped off all the old Marblite and re-surfaced the pool in a more modern Portland Grey Marblite
- Further, we replaced the coping and mosaic of the pool to modernize completely.
- We also rebuilt the fountain and fitted a new stainless steel spout. To finish off the fountain, we applied a modern charcoal riven cladding.
- Finally, we fitted new paving to the pool surround which completed the face-lift and created an altogether modern backyard entertainment area for the Client.

A Custom New Build

4mx3m Rectangular Pool

The Client approached us to build a new pool in a very limited space in their backyard.

- We also built a fountain for the Client and fitted a modern riven cladding from Italtile.
- The Client wanted an ultra modern mosaic tile which we sourced from Union Tiles.
- The pool was finished in Portland Grey Marblite.
- The Client also contracted us to finish their pool area in a modern Bosun Urban paver to the pool surround. This allowed us to create a gorgeous sun tanning area where the Clients and their Daughters could spend hours relaxing at the pool side.

Our 68 years of experience has set us up to build specialist pools such as these.

An Interiors Delight

Complete Pool & Paving Renovation

We were contacted by our Client who is a prominent interior decorator to fully refurbish this tired pool in Morningside.

The Client was renovating his entire home and wanted the pool modernized.

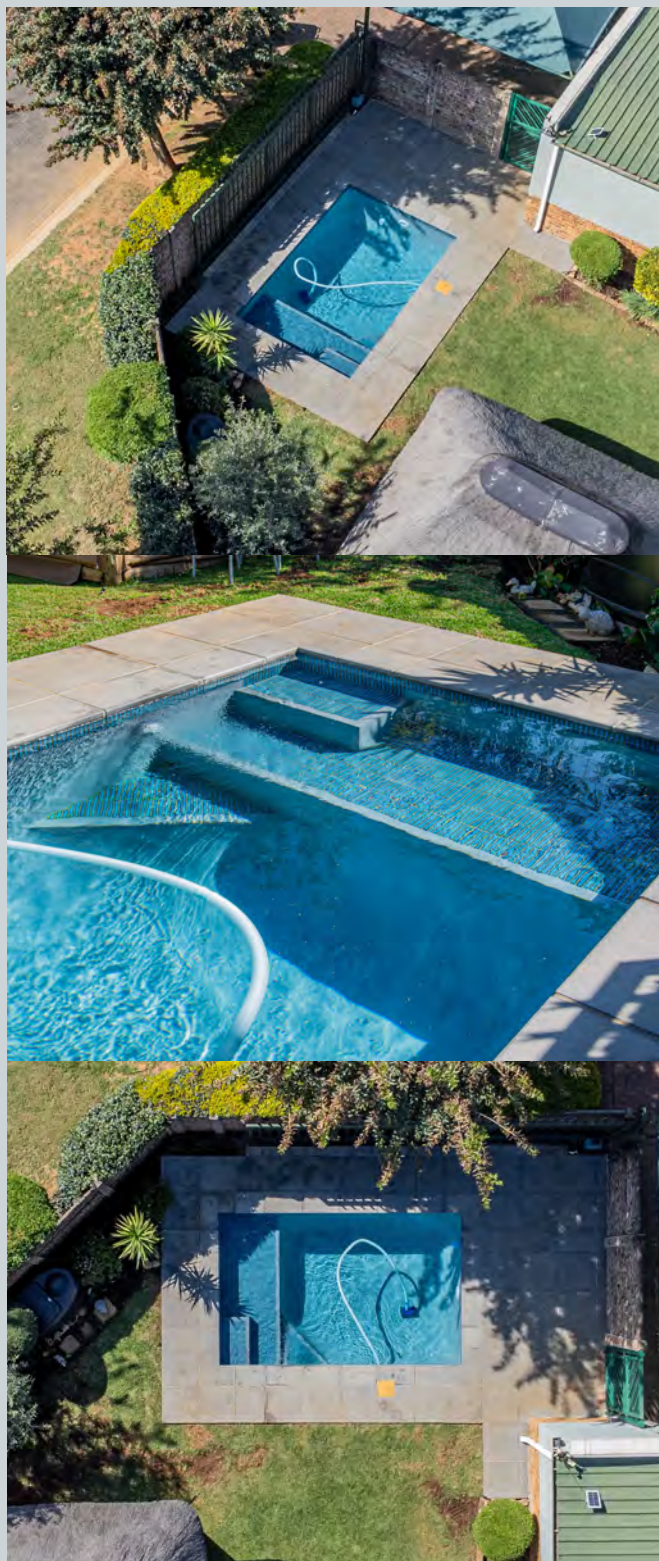

- We chipped off the old Marblite to the pools concrete core.
- We re-applied new Marblite in Portland Grey to give the pool a stunning Mediterranean teal blue colour.
- Before this was undertaken, we designed and built a new step design for the entrance of the pool giving the Client a useable play area for his young Children.
- The Client wanted a tiled pool surround and we also fitted a chic bull nose tiled coping which complemented the tiled pool surround.
- New glass mosaics were fitted which completed the revamp giving this pool a thorough facelift and in so doing, ensuring that its appearance would be bang up-to-date for years to come.

A Custom New Build

4mx3m Rectangular Pool

The Client approached us to build a new pool in a very limited space in their backyard after dealing with a few companies that all said they could not help as she also wanted to use a specific solar system.

- We designed a rectangular pool which complemented the area of the garden perfectly.
- We fitted a modern Kit Kat mosaic from Union Tiles to the water line and steps.
- The area was finished off with a Smartstone paver to match the coping sizes giving the area a more classic, enduring look.
- The Client wanted an energy efficient option for the pools pump and so we specified Speck's variable speed pump which ensures efficient energy usage and quiet operation.
- The pool was finished in Portland Grey Marblite to the delight of the Client.

Our 68 years of experience has set us up to build specialist pools such as these.

An Upmarket Reno

SA Gunitite to the Rescue

The Client had received terrible service from a competitor pool company who had fitted the granite spill over cap at the wrong height which meant the rim flow did not function correctly.

- We chipped off all the old Marblite and removed the rubble from site.
- We removed the incorrectly fitted spill over cap.
- A new granite cap was fitted at the correct height which allowed the water to spill over throughout the length of the rim flow.
- We fitted a black Kit Kat mosaic to the water line, step edges and jacuzzi. This created a very chic look and tied in with the Clients home's design.
- The pool was finished off in Portland Grey Marblite and the Client was delighted with the end result.

Remarbliting & Finishes

A Fresh Coat

Marblite is one of the most popular finishes in Gauteng—and for good reason.

It's durable, elegant, and timeless. Our team is highly experienced in:

- Full pool resurfacing with Marblite
- Custom colour selections
- Tiling and mosaic inlays
- Decorative features and borders

Paving & Coping

High Quality is What We Do

The area around your pool is just as important as the pool itself.

We offer beautiful paving and coping options in a wide range of materials and styles:

- Bullnose coping
- Sandstone, slate, granite, brick and travertine
- Non-slip surfaces for safety
- Seamless transitions between pool and entertainment areas

Heating & Comfort Solutions

Comfort All-Year Round

We install high-performance heat pumps and solar heating systems to ensure your pool is enjoyable even in the cooler months:

- Energy-efficient options
- Full heat pump integration
- Pool blanket and roller installation

Maintenance & Weekly Servicing

So Clean Your Neighbours get Jealous

Protect your investment with professional pool care. SA Gunate offers a full-service maintenance plan including:

- Weekly cleaning and water balancing
- Equipment inspections and minor repairs
- Seasonal readiness services
- Emergency call-outs for existing clients
