

nuuma

KITCHEN CULTURE

## OUR STORY

born from the belief that a kitchen should not only serve but also inspire, nuuma has established itself as the leader in refined luxury kitchens. its name, derived from the language of simplicity, reflects a brand philosophy rooted in restraint, purpose, and depth. drawing from principles of interior minimalism, nuuma creates spaces that are calm yet distinct—quietly powerful in their presence and rich in their luxurious detailing.

though proudly south african in origin, nuuma is global in outlook. the brand delivers a curated, customisable design experience that speaks to a sophisticated audience with diverse tastes and elevated expectations. through its signature ranges—N10, N30, N50, and N90—nuuma offers a considered approach to spatial design, allowing each client to find their own expression within a timeless framework.

at the heart of nuuma is a new kitchen culture—one that places the individual at the centre of the experience. these are not task-driven spaces, but living environments crafted with intention and care. every line, every junction, every finish is refined to elevate the everyday into something exceptional. nuuma is proud to be part of the ordegroup of companies, drawing on nearly two decades of design leadership and manufacturing excellence. it is this foundation that allows nuuma to deliver spaces that are not only beautiful, but truly enduring.

DETAIL RFINED

the numa ranges have been meticulously developed to offer clients direction. the ranges assist in determining the focus of the design with each range considering different colour schemes and materials. there are four ranges to consider and through these we reflect various interior schemes to ensure your numa kitchen will effortlessly serve your desired look.

the numa N10 range is distinguished by its understated materials and subtle colour scheme. it draws on the essentials ensuring a minimalist scheme but with materials that still offer interest. the range considers refined textures that seamlessly incorporate the surrounding interior.

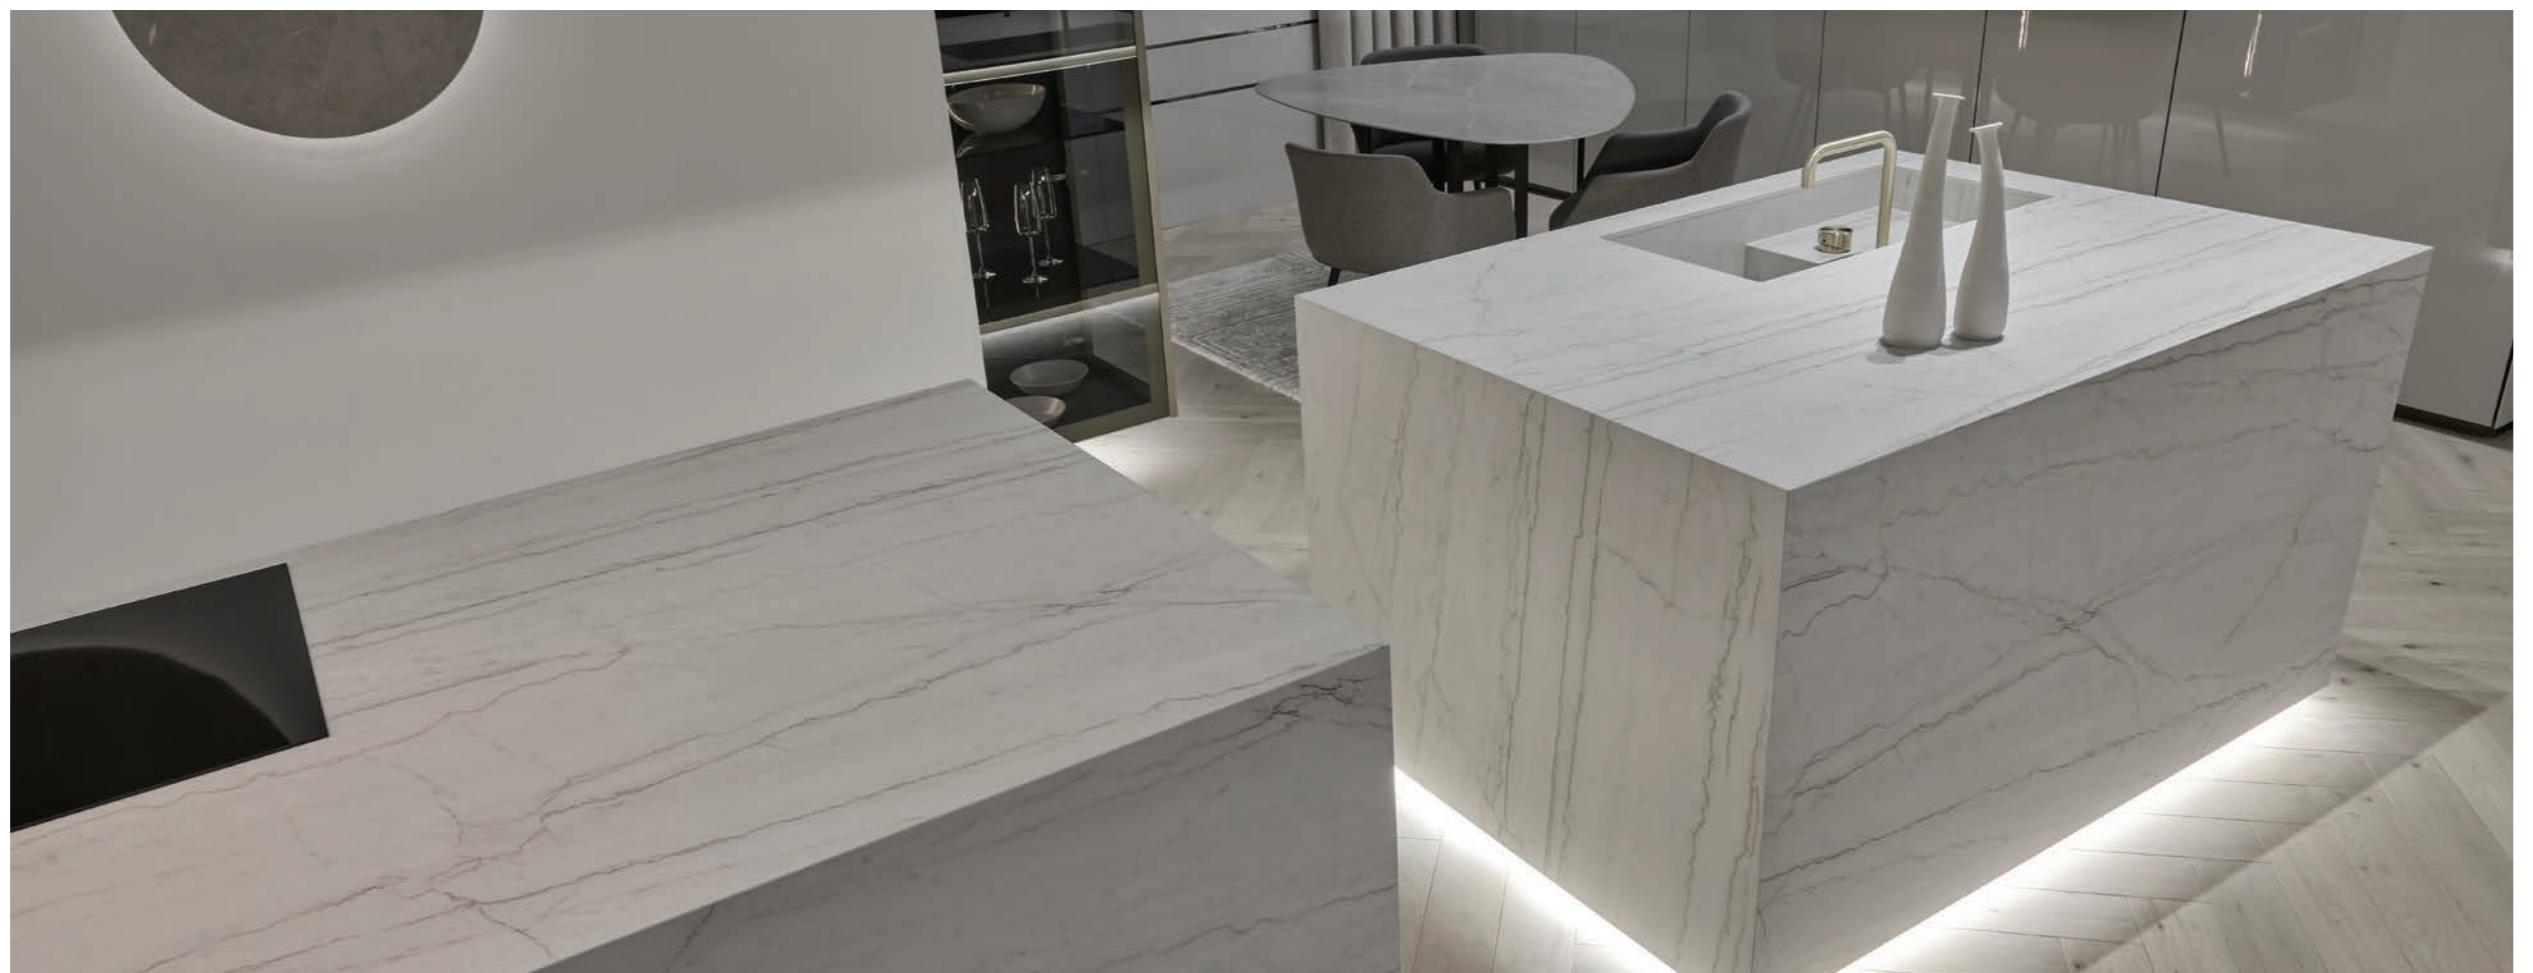

the details of this range are delicate while still making a statement. the materials reflect our focus on natural simplicity fused with organic form.

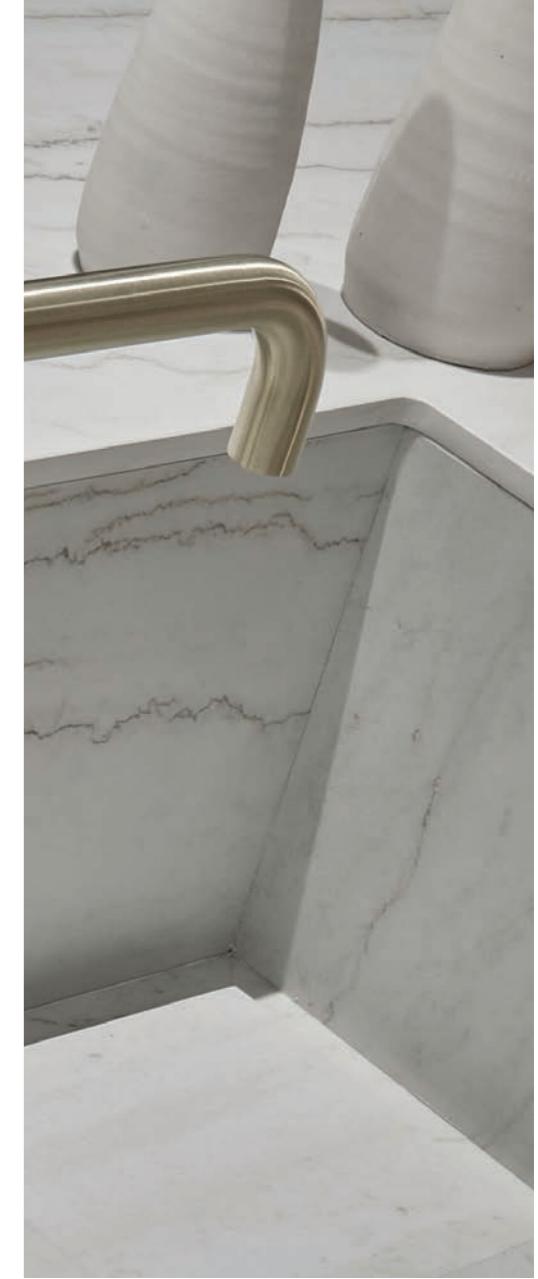

we consider the levels of the kitchen in an ever so subtle way ensuring they never detract from the feeling of calm that we have created through design.

the nuuma N30 range considers soft materials and a sophisticated colour scheme. the range seeks to draw on earthy tones while still being able to offer that sense of luxury. the range is adaptable to various environments and with the materials considered offers clients a journey of elegance.

design for people ensures that your numa kitchen is thought through with every function considered. we focus on the internal details with organisational requirements catered for as standard.

the use of natural materials in the form of satin lacquer and aluminium offers the sophisticated styling synonymous with numa. the level of contrast is subtle yet creates a statement of refinement for the surrounding interior.

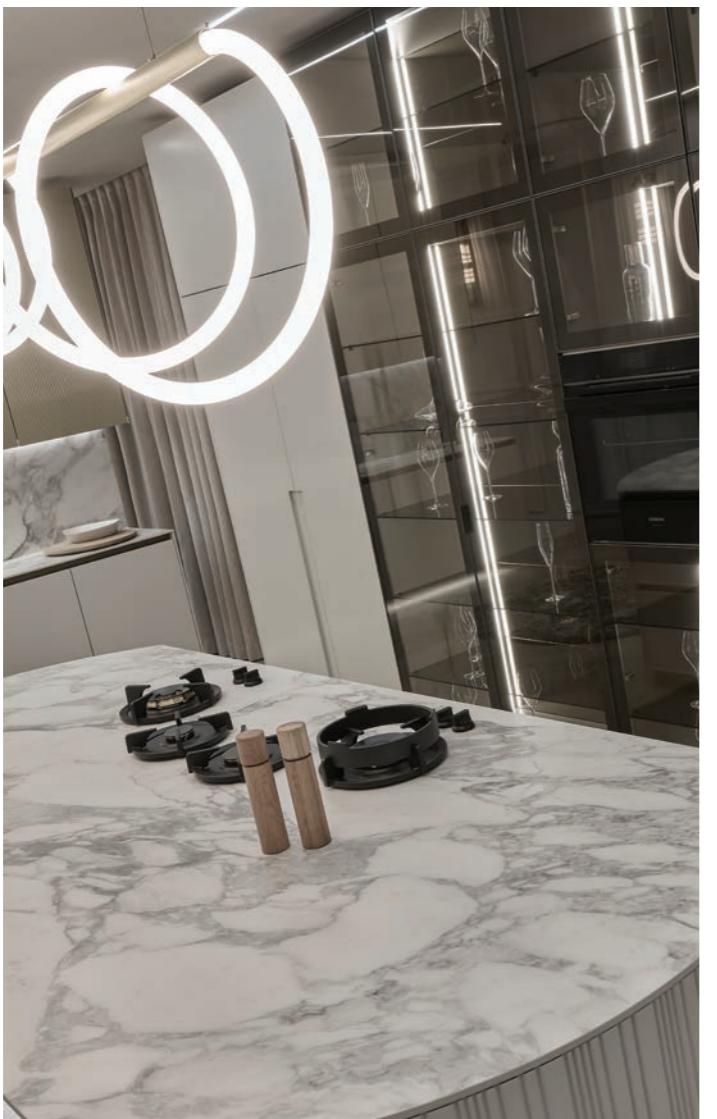

the N50 numa range is set apart by its designer materials and refined colour scheme. it has a contemporary feel and pushes the boundaries on materials and combinations of colour. still gleaned off a subtle feel, this range offers clients the ability to add drama to the space.

the nuuma design ethos considers human-centred design where we focus on understanding the perspective of every person using the kitchen space, ensuring thought through and considered layouts.

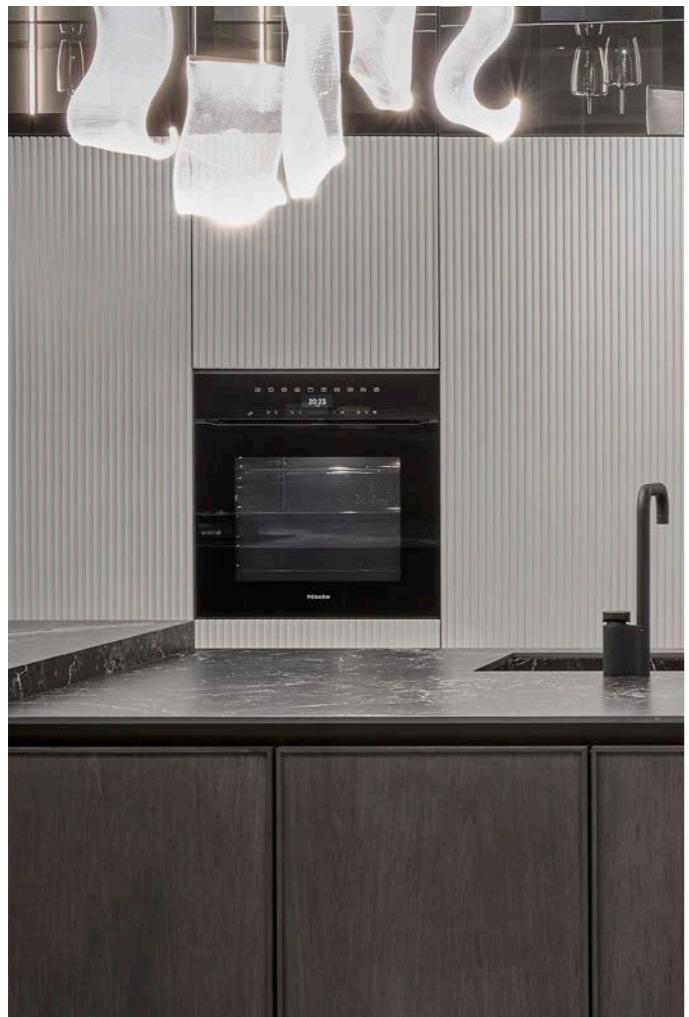

the intention of our materials used is to create an effect that will cause emotion. surrounding environments are able to therefore effortlessly forge with the kitchen.

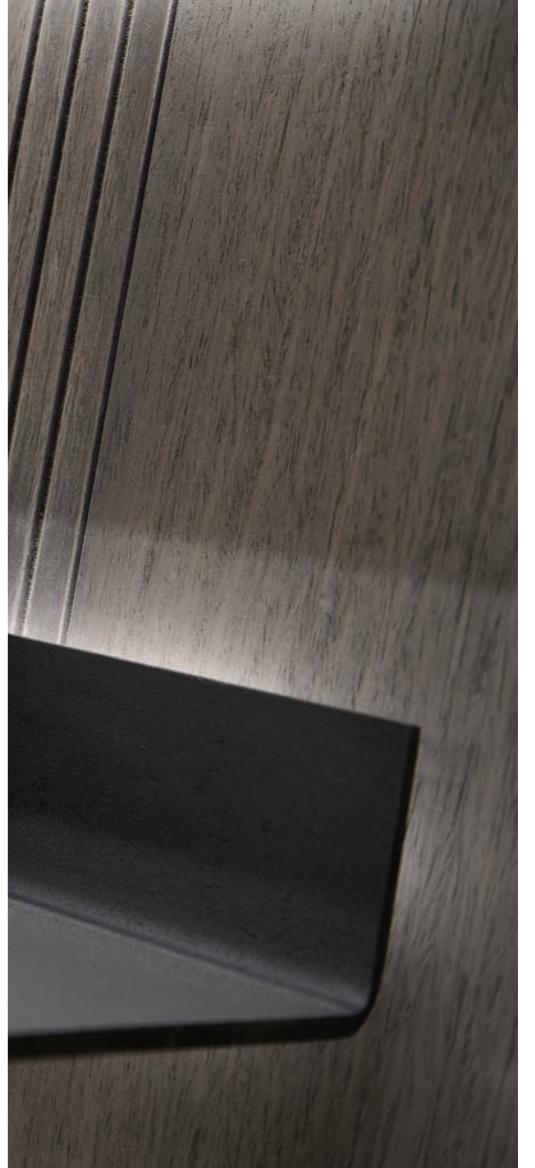

this range considers a contemporary feel with materials and colour schemes that compliment but also contrast. the design aesthetic is paired-back while at the same time offering interest to the space. the modern textures are brought in to offer interest to the overall design scheme.

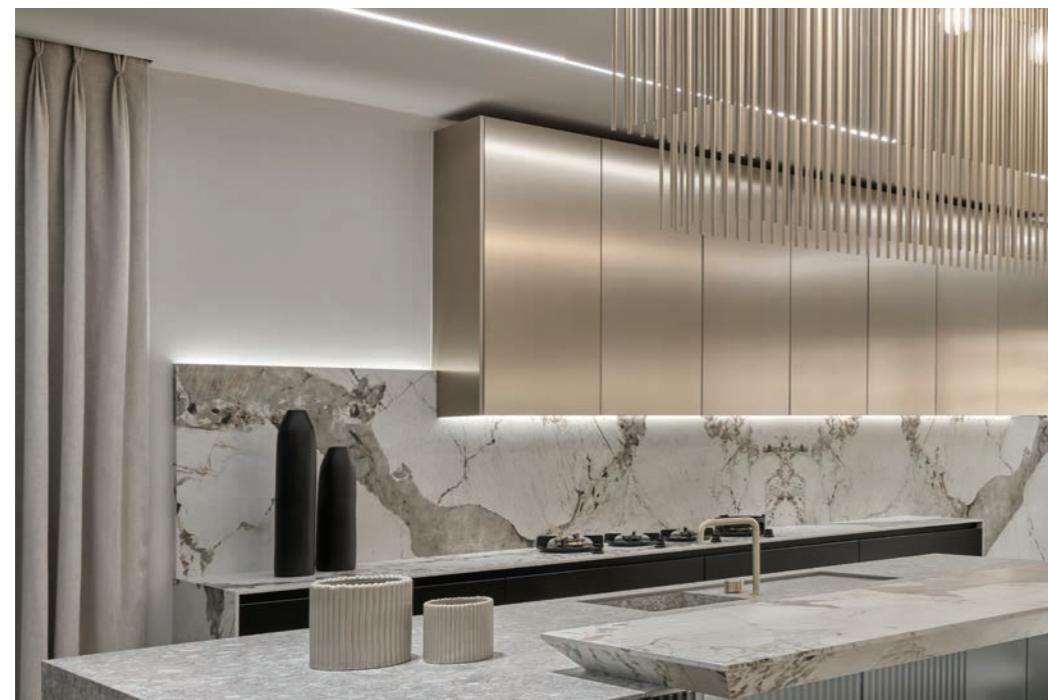

the N90 nuuma range offers rich materials and a dramatic colour scheme. rich tones and considered contrasts ensure that this range makes a statement in the interior. with that said this range can be toned down while still offering a deep feel.

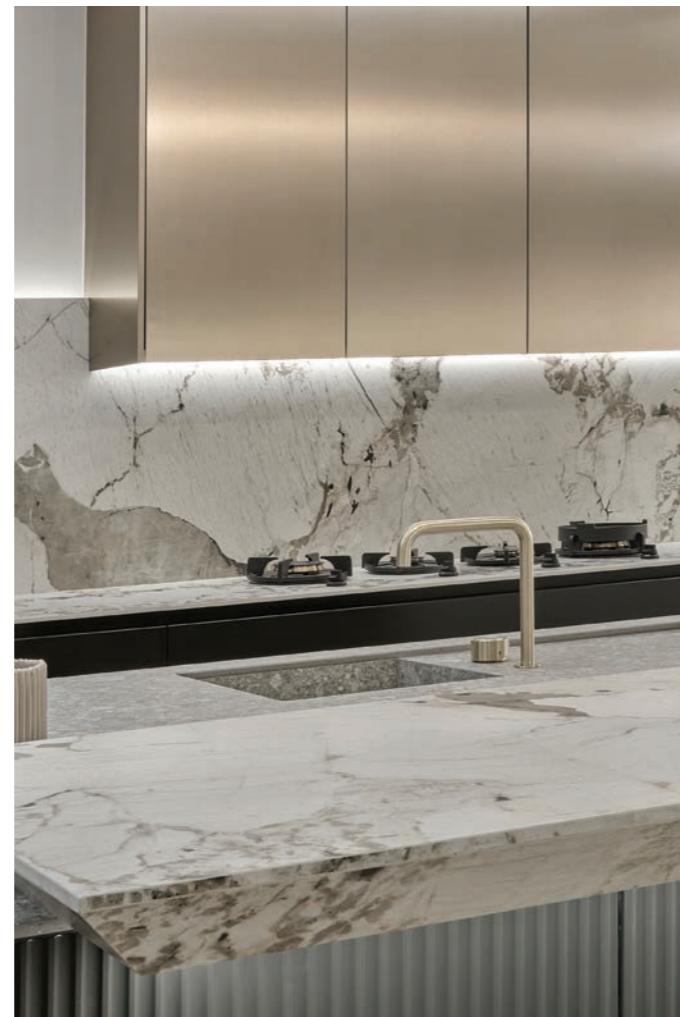

the clean lines of this range offset against the dark toned backdrops ensure architectural proportions that bring the desired drama to a modern space.

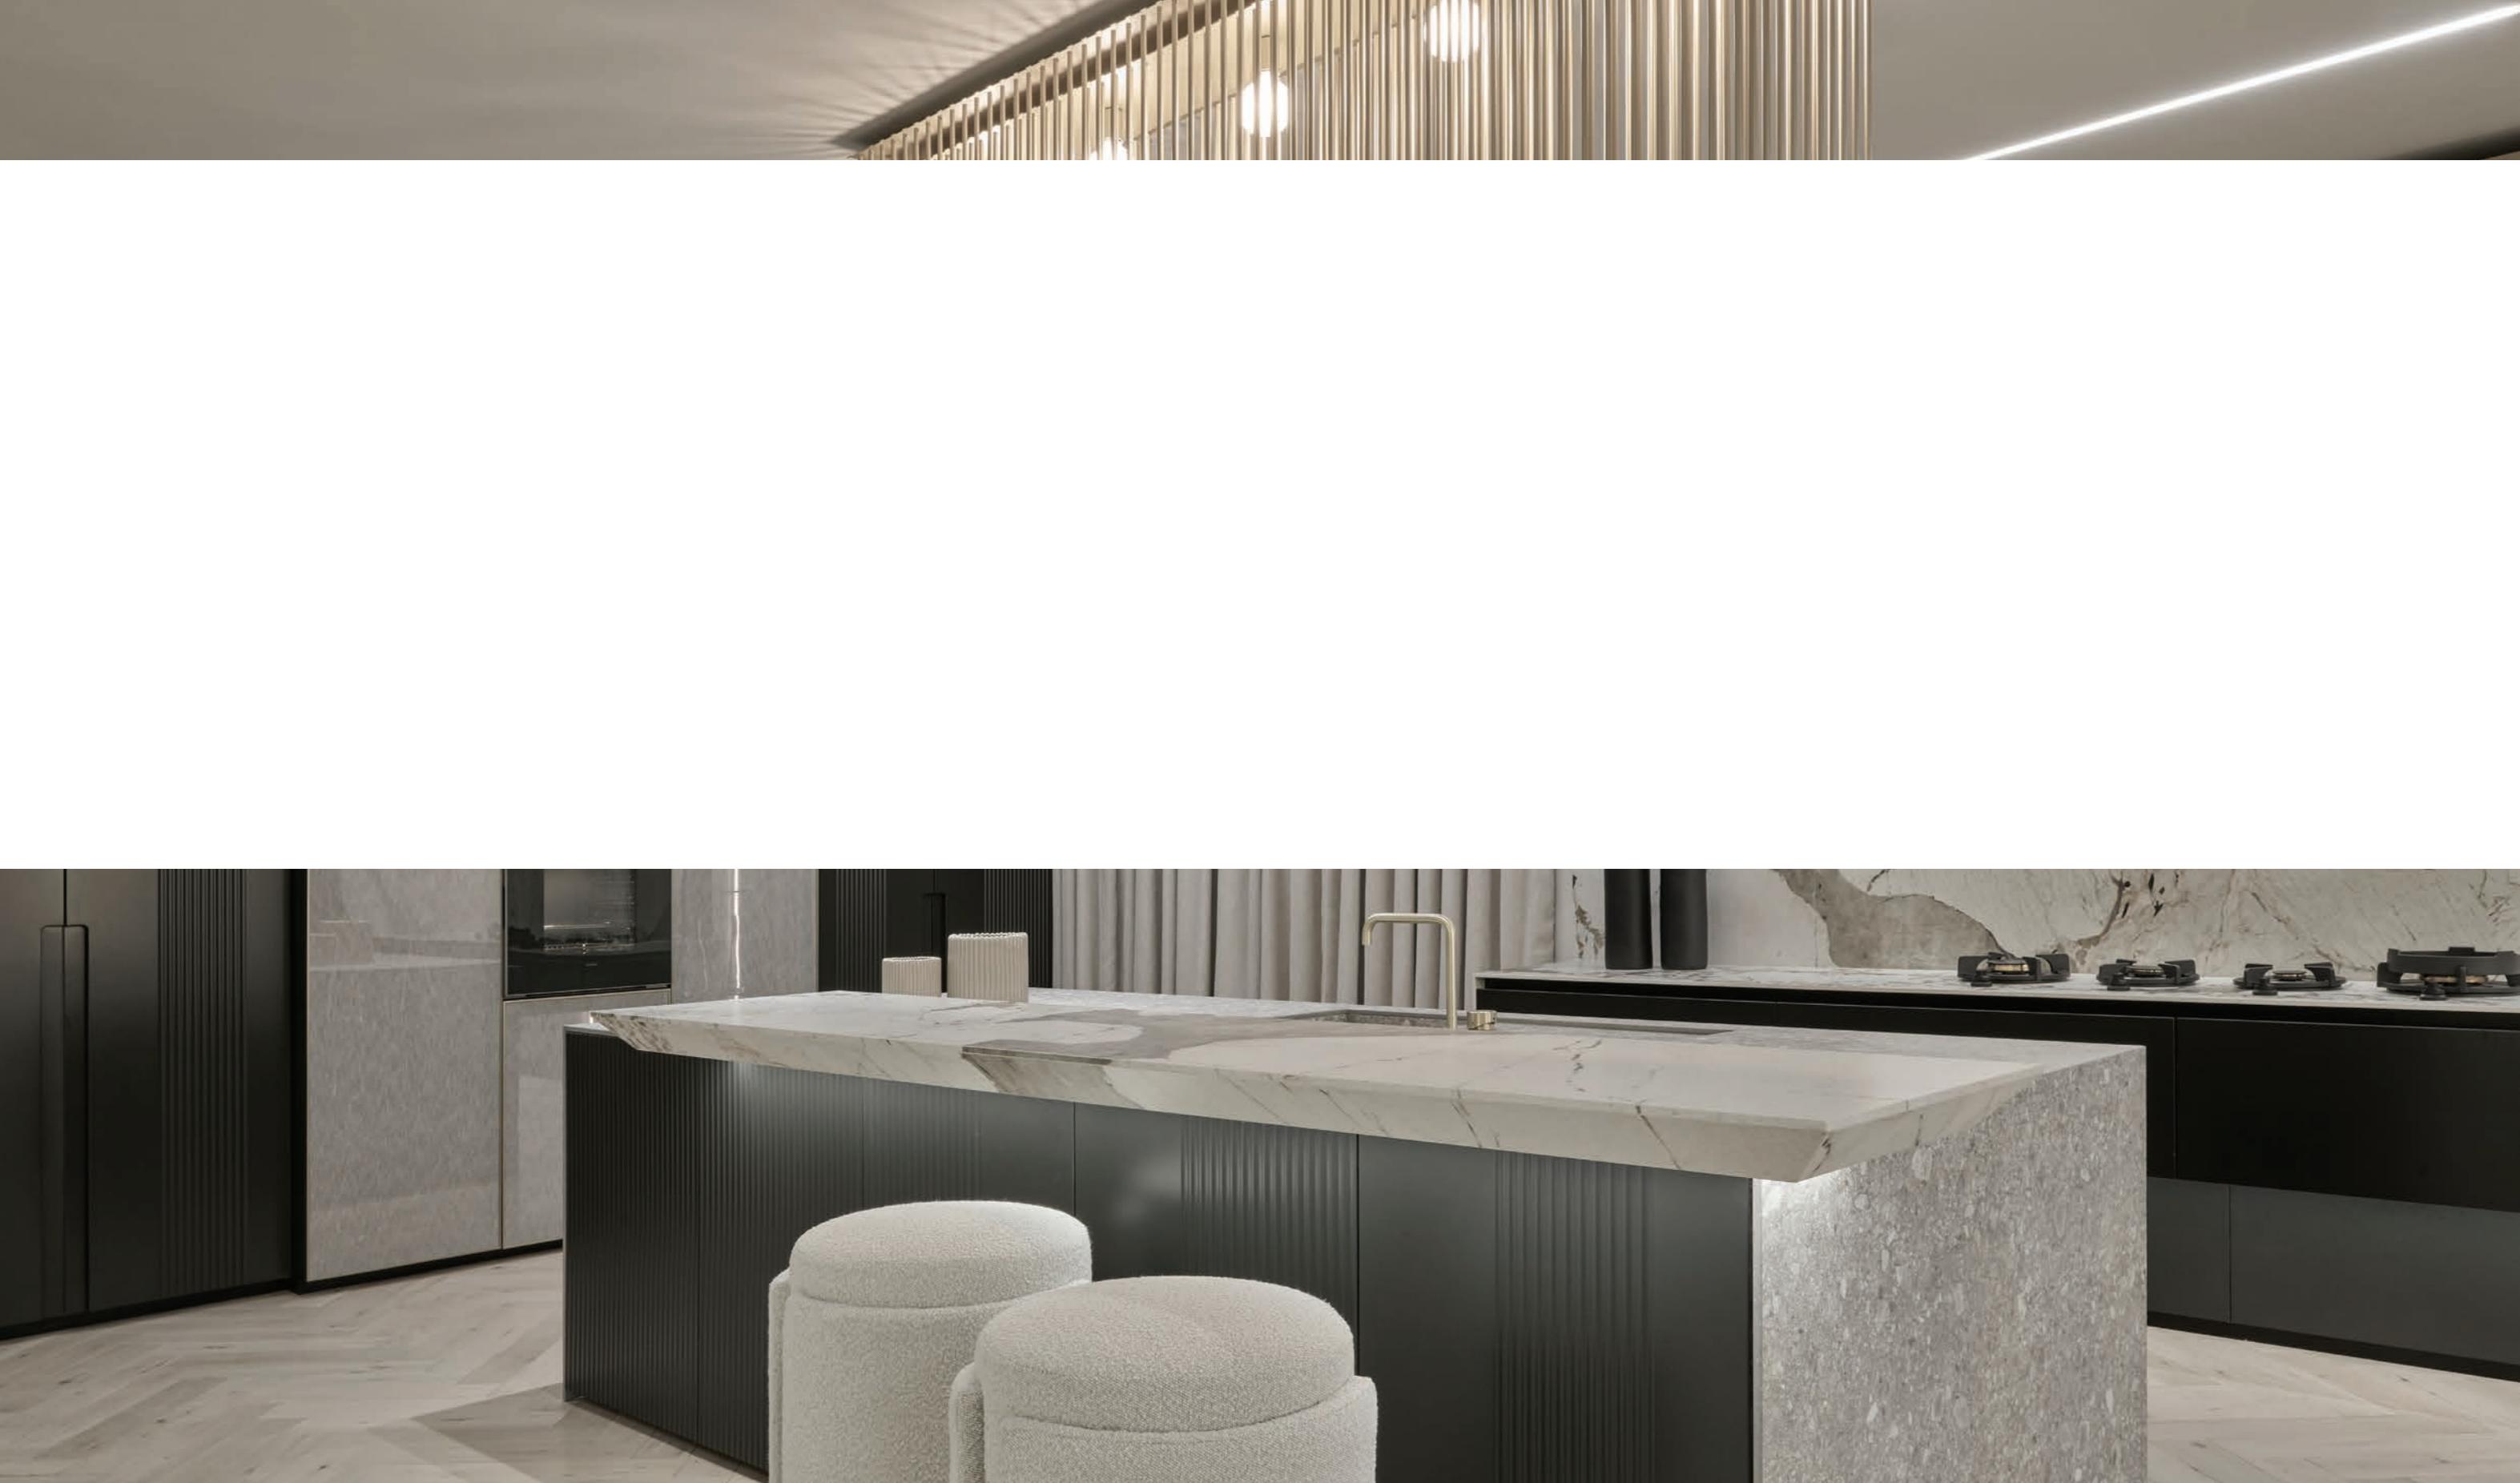

the dramatic effect of our textures offer a necessary feel for the demands of modern design. accent materials consider the spatial aspects of the living space.

## WARDROBES

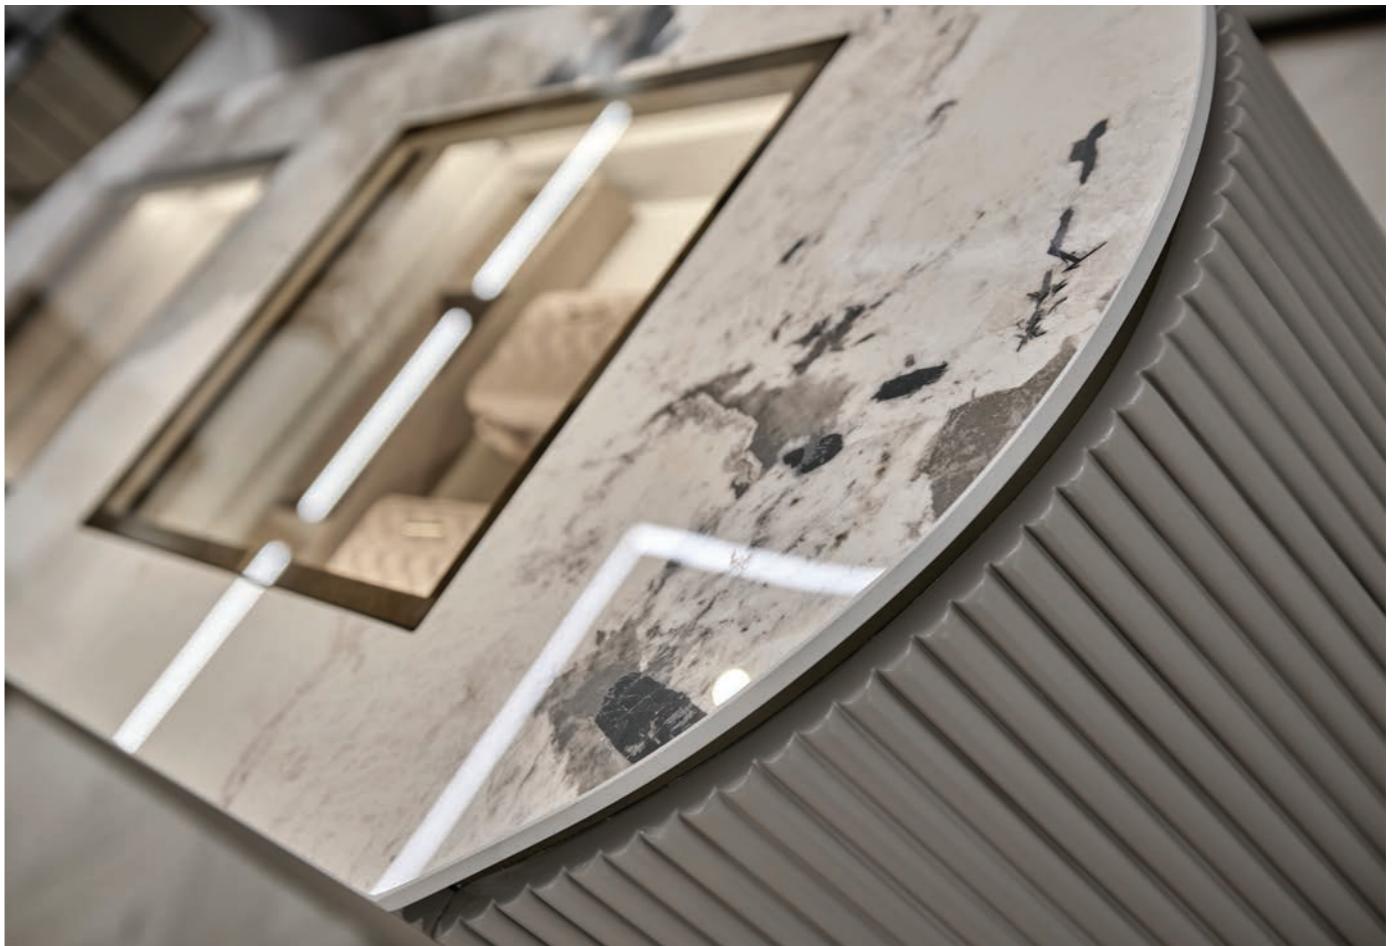

nuuma wardrobes are crafted with a focus on refined simplicity and modern luxury, offering bespoke storage solutions that seamlessly integrate into contemporary interiors. each wardrobe is designed to enhance the living space.

nuuma wardrobes are tailored to individual preferences, providing customisable options that cater to diverse styles and functional needs. nuuma ensures that each piece contributes to a harmonious and luxurious home environment.
